

Grade 5A — Add and subtract fractions

Console pictures are not in this copy. The lesson screens start at sign-in.

Monde Primary School.

Lesson name in Kolibri: **Grade 5A Duration Lesson.**

Tapiwa walks the teacher through this. Read one step. Do it. Then go to the next step.

The lesson is already on the computer. It has three videos, then three exercises. You do not add resources. You do not remove resources. You open it, check it, and make it **Visible** for the class.

Before class

Do this before the learners come in.

1. Open Kolibri from the Console

The app is already **Running**. You only open it.

1. Open **Chromium**.
2. Go to the **Console** page this school already uses. Do not type a port number. Do not type a new web address.
3. On the left, the heading says **Network**.

Picture not in this copy.

1. You can stay on **All apps**. Or click the disk named **duration-kolibri-grade5a-001**. It sits under the engine name. The right side then shows that disk. The list is headed **Apps**.

Picture not in this copy.

1. Find the row named **kolibri-grade5a-001**. The line under that name is the app title. If there is no title, that line says **kolibri-1.0**.
2. Point at the coloured dot on the left of the row. It should say **Running**. The dot is green.
3. **Open** is on the right of that same row. Click **Open**.

Picture not in this copy.

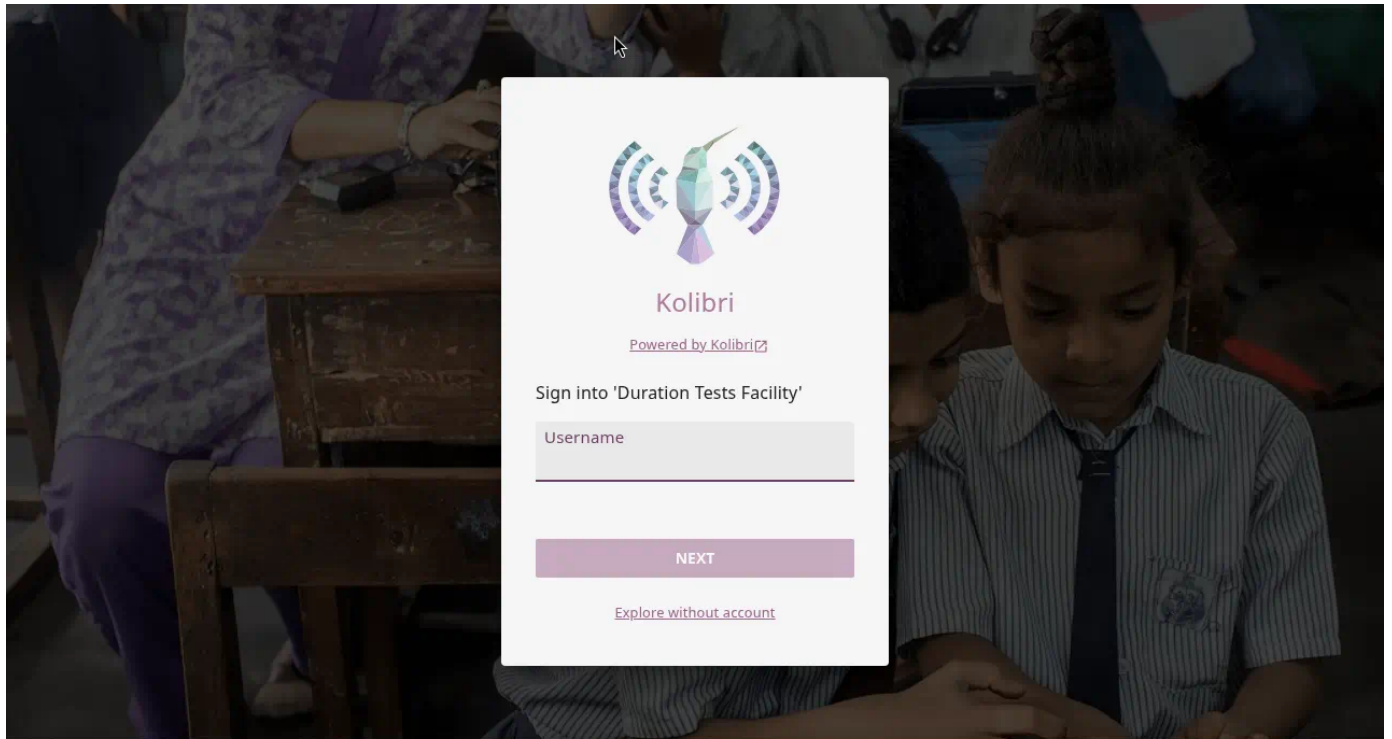

A new tab opens. It uses the same computer you already opened the Console on. You do not type a port.

Do not click **Start**. Do not click **Stop**. Do not click **Back up**.

If you do not see **Open**, stop. Call Tapiwa. Do not press **Start** yourself.

2. Sign in

1. On the new tab, click **Sign in**.
2. Type your username and password.
3. You should see the Kolibri home page, with **Classes** in the left menu.

English [Español](#) [Français](#) [Kiswahili](#) [العربية](#) [MORE LANGUAGES](#)

3. Open the lesson

1. Click **Classes** in the left menu.
2. Click the class for this group. The name on screen is the Grade 5A class.

The screenshot shows the 'Coach - Grade 5A' interface. At the top, there is a purple header bar with a menu icon, the text 'Coach - Grade 5A', and a user profile 'teacher'. Below the header, there are three tabs: 'CLASS HOME', 'REPORTS', and 'PLAN'. The main content area is divided into several sections. The first section is titled 'Grade 5A' and shows 'Coach teacher' and 'Learners 3 View learners'. Below this, there are two columns. The left column has a 'Quizzes' section with the text 'There are no quizzes'. The right column has a 'Class activity' section with the text 'No activity in your class'. At the bottom, there is a 'Lessons' section with a 'VIEW ALL' link. Under 'Lessons', there is a card for 'Grade 5A Duration Lesson' for the 'Entire class'. It shows a progress bar and the text '3 have not started'.

1. Click **Lessons**.
2. Click **Grade 5A Duration Lesson**.

Picture not in this copy.

4. Check the resources are in this order

Look at the list inside the lesson. It should be three videos first, then three exercises. Read the names. They should match this list.

Videos (do these first):

1. Visually adding fractions: $5/6 + 1/4$
2. Visually subtracting fractions: $3/4 - 5/8$
3. Estimating adding fractions with unlike denominators

Exercises (do these after the videos):

1. Visually add and subtract fractions
2. Estimate to add and subtract fractions with different denominators
3. Common denominators

MANAGE RESOURCES

- Visually adding fractions: $5/6 + 1/4$
Khan Academy (English - US curriculum) REMOVE
- Visually subtracting fractions: $3/4 - 5/8$
Khan Academy (English - US curriculum) REMOVE
- Estimating adding fractions with unlike denominators
Khan Academy (English - US curriculum) REMOVE
- Visually add and subtract fractions
Khan Academy (English - US curriculum) REMOVE
- Estimate to add and subtract fractions with different denominators
Khan Academy (English - US curriculum) REMOVE
- Common denominators

If a name is missing, or the order is wrong, stop. Tell Tapiwa. Do not add or delete resources yourself.

5. Check who the lesson is for

1. On the open lesson, find **Recipients**.
2. It must show your Grade 5A class.
3. If the class is not there: click **Edit**, add the class under **Recipients**, and save.

✕ Edit lesson details

6. Make the lesson visible

1. Set the lesson to **Visible**. The button turns blue.
2. Learners can see the lesson the next time they sign in.

The screenshot shows the 'Coach - Grade 5A' interface. At the top, there's a navigation bar with 'CLASS HOME', 'REPORTS', and 'PLAN' tabs. The 'PLAN' tab is active. Below the navigation bar, there's a section for 'Grade 5A Duration Lesson' with a sub-header 'Created 3 days ago'. To the right of this section is an 'OPTIONS' dropdown. Below the lesson title, there's a 'Visible to learners' toggle switch, which is currently turned on (green). Below this, there's a 'Recipients' section with 'Entire class' selected. Below that, there's a 'Description' field. To the right of the 'Visible to learners' section, there's a 'Resources' section with a 'MANAGE RESOURCES' button. The 'Resources' section lists four Khan Academy videos related to fractions, each with a 'REMOVE' button.

Resources	MANAGE RESOURCES
Visually adding fractions: 5/6+1/4 Khan Academy (English - US curriculum)	REMOVE
Visually subtracting fractions: 3/4-5/8 Khan Academy (English - US curriculum)	REMOVE
Estimating adding fractions with unlike denominators Khan Academy (English - US curriculum)	REMOVE
Visually add and subtract fractions Khan Academy (English - US curriculum)	REMOVE

If it is already **Visible**, leave it. Do not turn it off.

During class

You lead. The learners work on their own screens. Walk the room. Do not do the exercises for them.

1. Learners sign in

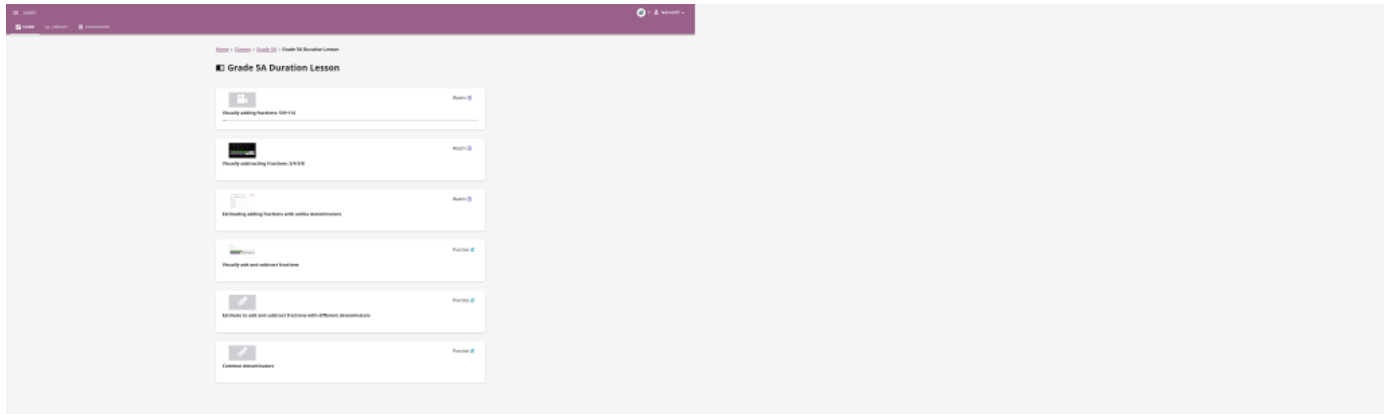

Each learner:

1. Opens **Chromium** and the **Console**, the same way you did.
2. Stays on **All apps**, or clicks the disk **duration-kolibri-grade5a-001**.
3. Finds the row **kolibri-grade5a-001**. The dot says **Running**.
4. Clicks **Open**. Does not click **Start**.
5. Clicks **Sign in** and uses their own username and password.

They must sign in with their own name. If they do not sign in, you will not see them in Reports later.

2. Learners open the lesson

1. Click **Classes**.
2. Click the Grade 5A class.
3. Click **Lessons**.
4. Click **Grade 5A Duration Lesson**.

They should see the same six resources, videos first.

3. Videos first, then exercises

Say this to the class:

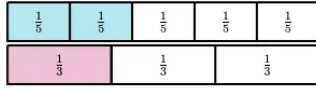

1. Do the three videos first. Do not skip them.
2. Watch **Visually adding fractions: 5/6+1/4**.
3. Then watch **Visually subtracting fractions: 3/4-5/8**.
4. Then watch **Estimating adding fractions with unlike denominators**.

← Visually adding fractions: 5/6+1/4

- [Voiceover] Let's see if we can calculate what 5/6

1. After the three videos, do the exercises in this order: - Visually add and subtract fractions - Estimate to add and subtract fractions with different denominators - Common denominators
2. Answer the questions on the screen. Kolibri tells them straight away if the answer is right.
3. Stay in this lesson until the six resources are done, or until you say stop.

Use a hint (8 left)

$$\frac{2}{5} + \frac{1}{3} = \boxed{}$$

CHECK

If a learner cannot find the lesson, check with them: Did they sign in? Is the lesson **Visible**? Does **Recipients** show this class?

Do this when the learners have finished, or at the end of the period.

1. You are signed in as the teacher.
2. Click **Reports** in the left menu.
3. Click **Classes**.
4. Click the Grade 5A class.
5. Click **Lessons**.
6. Click **Grade 5A Duration Lesson**.

Description

REPORT

LEARNERS

Name	Progress	Groups
Learner One	Started	—
Learner Three	Has not started	—
Learner Two	Has not started	—

What you see	What it means
Not started	They have not opened the lesson. Did they sign in? Could they find it?
In progress	They started. They have not finished every resource.
Completed	They finished the resources in the lesson.
Progress	How much of the lesson they opened.
Time spent	How long they were on the lesson.

What to do with it:

- **Not started:** ask the learner. Often they were not signed in, or the lesson was not **Visible**.
- **In progress:** they can finish next time. Note the name.
- You do not need every learner at 100% today. You need to see that they signed in, watched, and tried the exercises.

Tell Tapiwa one thing you saw. Example: "Most of Grade 5A finished the videos. Three learners did not start."

If something is wrong

What you see	What to do
No Open on the row kolibri-grade5a-001	Stop. Call Tapiwa. Do not press Start .
Learner cannot sign in	Class → the learner's name → Edit → reset the password. Or call Tapiwa.
Lesson not on the learner's screen	Check Recipients shows the class. Turn Visible on (button blue).
Reports is empty	Learners must sign in with their own name before they start.
A resource name is missing	Stop. Tell Tapiwa. Do not add resources yourself.

Names you click

These are the words on the screen. They are not web addresses.

Where	The name you click
Disk under the engine name	duration-kolibri-grade5a-001
App row	kolibri-grade5a-001
Lesson	Grade 5A Duration Lesson
Class	the Grade 5A class at Monde Primary
